Office of Finance

OFFICE OF FINANCE
REFUND BRANCH
US PATENT & TRADEMARK
OFFICE
2004 APR 12 PM 3:15

Sir:

We hereby request that a credit be given to Deposit Account 50-1177 in the amount of \$86 which was charged on March 19, 2004, Seq. No. 4, Fee Code 1201 (see attached Statement) for an additional independent claim. This case was originally filed with 5 independent claims (copy of transmittal and Statement of August 2001 attached); then an amendment was filed on March 16, 2004, which cancelled 2 independent claims and added 1 independent claim (copy attached); therefore Applicant believes that the fee charged on March 19 was in error since Applicant had already paid for 2 extra independent claims.

This request is being filed within two years of the referenced Statement.

Respectfully submitted,

Cognis Corporation
300 Brookside Avenue
Ambler, PA 19002

AMENDMENT

Sir:

In response to the Office Action dated December 16, 2003, please amend the instant application as follows.

Amendments to the Claims begin on page 2 of this paper.

Remarks/Arguments begin on page 9 of this paper.

Appl. No.: 09/890,295
Response dated March 16, 2004
Reply to Office action of December 16, 2003

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claims 1-13 (cancelled).

Claim 14 (previously presented): A method of imparting antistatic properties to a thermoplastic comprising contacting a thermoplastic with from about 0.5 to about 5 parts by weight of an antistatic agent of the formula (I):

wherein R^1CO is an acyl group having from about 6 to about 22 carbon atoms; each of R^2 and R^3 is independently hydrogen or R^1CO ; m , n and p together stand for 0 or numbers of 1 to 12.

Claim 15 (previously presented): A method of imparting antistatic properties to a thermoplastic comprising contacting a thermoplastic with from about 0.5 to about 5 parts by weight of an antistatic agent of the formula (II):

wherein R^1CO is an acyl group having from about 6 to about 22 carbon atoms, R^2 is

hydrogen or R^1CO ; R^4 is an alkyl group having from 1 to about 4 carbon atoms and q and r together stand for 0 or numbers of 1 to 12.

Claim 16 (previously presented): A method of imparting antistatic properties to a thermoplastic comprising contacting a thermoplastic with from about 0.5 to about 5 parts by weight of an antistatic agent of the formula (III):

wherein R^1CO is an acyl group having from about 6 to about 22 carbon atoms; R^2 is hydrogen or R^1CO , each of R^4 and R^5 is independently an alkyl group having 1 to about 4 carbon atoms and s and t together stand for 0 or numbers of 1 to 12.

Claim 17 (cancelled).

Claim 18 (new): The method of claim 14 further comprising contacting the thermoplastic with a lubricant selected from the group consisting of a compound corresponding to formula (IV):

Appl. No.: 09/890,295

Response dated March 16, 2004

Reply to Office action of December 15, 2003

wherein R^6CO is a linear or branched, saturated and/or unsaturated acyl group having from 6 to 22 carbon atoms; each of R^7 and R^8 is R^6CO or OH with the proviso that at least one of R^6 and R^7 is OH ; each of m , n , and p is a number for 0 to 100 such that the sum of $v+w+x$ has a value of from 0 to 100; a compound corresponding to formula (V):

(V)

wherein R^9CO is a linear or branched, saturated or unsaturated acyl group having from 6 to 22 carbon atoms, and mixtures thereof.

Claim 19 (new): The method of claim 15 further comprising contacting the thermoplastic with a lubricant selected from the group consisting of a compound corresponding to formula (IV):

(V)

wherein R^9CO is a linear or branched, saturated or unsaturated acyl group having from 6 to 22 carbon atoms, and mixtures thereof.

Claim 21 (new): A polymeric composition comprising:

- (a) a thermoplastic;
- (b) from about 0.5 to 5 parts by weight, based on the weight of the thermoplastic, of an antistatic additive selected from the group consisting of a compound corresponding to formula (I):

wherein R^1CO is an acyl group having from about 6 to about 22 carbon atoms; each of R^2 and R^3 is independently hydrogen or R^1CO ; m, n and p together stand for 0 or numbers of 1 to 12, a compound corresponding to formula (II):

wherein R^1CO is an acyl group having from about 6 to about 22 carbon atoms, R^2 is

Remarks

Favorable consideration and allowance of the instant application is respectfully requested in view of the foregoing amendments to the claims, and the remarks which follow.

Claims 14-16 and 18-21 are currently pending in this application.

The Examiner's rejections, as they pertain to the patentability of the claims, are respectfully traversed.

Claims 10-12 and 17 are rejected under 35 U.S.C. § 102(b) as being anticipated by Ikenaga et al. (US 4,274,986). This rejection is respectfully traversed for the following reasons.

Claims 10-12 and 17 have been cancelled. Accordingly, reconsideration and withdrawal of this rejection is respectfully requested.

Claims 14 and 17 are rejected under 35 U.S.C. § 102(b) as being anticipated by Browning (US 2,678,285). This rejection is respectfully traversed for the following reasons.

Initially, Applicant would like to note that it is very well settled that a factual determination of anticipation requires the disclosure, in a single reference, of each and every element of the claimed invention, and an Examiner must identify wherein each and every facet of the claimed invention is disclosed in the applied reference. See, In re Levy, 17 USPQ2d 1561 (Bd. Pat. App. & Inter. 1990). Applicant respectfully submits that the '285 reference fails to anticipate the present invention on the grounds that it fails to disclose each and every element thereof.

In example 1 of the '285 reference, there is a reference to a 5% aqueous emulsion containing triethanolamine stearate and polythene. It is unclear to Applicant, however, what significance this teaching has within the example. More particularly, in all of the other examples contained in the reference, a film is passed through a bath containing a surfactant and water. The same is true for the first part of example 1. However, in example 1, this disclosure mysteriously appears relating to an emulsion containing a

triethanolamine ester and polythene. It is not clear, however, whether the film treated in the first bath is then passed through the emulsion, or whether it is passed through the emulsion instead of the first bath. Nowhere else within the reference is there any disclosure, whatsoever, concerning the use of an aqueous emulsion containing a triethanolamine ester and polythene. Thus, its relevance within this reference is a complete mystery to Applicant.

Nevertheless, whereas claim 14 requires that its alkanolamine ester be employed in an amount of from about 0.5 to 5 parts by weight, based on the weight of the polymer, the '285 reference contains no such disclosure. Consequently, for this reason alone, the '285 reference should not be held to anticipate the invention embodied in claim 14. However, based on the lack of clarity associated with teaching contained in example 1 concerning the use of a triethanolamine ester and polythene, Applicant further submits that this teaching should not be relied upon for a finding of anticipation.

As for claim 17, it has been cancelled.

Accordingly, for all of the above-stated reasons, reconsideration and withdrawal of this rejection is respectfully requested.

Applicant would also like to note that with respect to the new claims submitted herewith, neither the '285 reference nor the '986 reference anticipates the subject matter contained in those claims. More particularly, with respect to the '285 reference, the shortcomings associated with its teaching are as outlined above. As for the '986 reference, it fails to contain any disclosure regarding the use of fatty acid alkanolamine esters, in general.

Accordingly, for all of the above-stated reasons, reconsideration and withdrawal of this rejection is respectfully requested.

It is believed that the foregoing reply is completely responsive under 37 CFR 1.111 and that all grounds for rejection are completely avoided and/or overcome.

Applicant respectfully requests that a timely Notice of Allowance be issued in this case.
